Who We Are

JFLIPS is a competitive cheerleading and tumbling coaching business based in Krugersdorp on the West Rand, dedicated to building athletes' skills, confidence, and team spirit through structured, safety-first coaching.

We currently coach multiple competitive squads, including the Mullie Meerkats and our flagship JFLIPS team, both registered through SAMCA and preparing full competition choreography for the upcoming season. School outreach is one of our top priorities — we want to bring this same standard of coaching directly into more schools, so more athletes get the chance to discover the sport.

Our Program: Competitive Cheer, Not Sideline Cheer

JFLIPS is registered through SAMCA, the organization our teams compete under. From February to July each year, our athletes train toward a full season of SAMCA competitions, going head-to-head against other primary school teams. This is a competitive cheerleading program — it isn't the sideline or game-day style of cheering seen pitchside at sports matches. Schools are welcome to request game-day or sideline appearances separately as an add-on, but that sits outside our core program.

What Sets Us Apart

- Qualified, hands-on coaching staff with real competition experience
- A structured, progression-based curriculum for tumbling, stunting and jumps
- Safety-first technique standards at every skill level
- Proven competition choreography built for SAMCA scoring
- A flexible partnership model that adapts to your school's needs

Why School Partnerships

Cheerleading gives schools an inclusive, high-energy extracurricular that builds school spirit, rewards discipline and teamwork, and opens a genuine pathway toward competitive and scholarship opportunities for athletes. Our goal is simple: make it easy for your school to offer this, with a model that fits how much involvement you want to have.

Choose the Model That Fits Your School

We've built two flexible partnership models, so any school can offer competitive cheerleading regardless of how much administrative capacity you have. Both deliver the same coaching quality — the difference is who handles the admin, and who pays whom.

OPTION A

School-Run Team

Your school takes ownership of the team's identity and administration. The school registers the team with the cheerleading governing organization and employs JFLIPS as the coaching provider — we supply qualified coaches, and the school pays for that coaching service directly. The team competes and trains under the school's own name.

OPTION B

JFLIPS Club Partnership

JFLIPS handles everything end-to-end — administration, coaching staff, and billing. We simply use your school's grounds and facilities to train, and the team can still carry a co-branded name (e.g. “JFLIPS at [School Name]”). Parents pay JFLIPS directly for their child's participation, so there is no administrative or financial load on the school at all.

Compare the Two Options

Category	Option A: School-Run Team	Option B: JFLIPS Club Partnership
Administration & sign-up	Handled by the school, with the governing cheer organization	Handled entirely by JFLIPS
Coaching staff	Provided by JFLIPS, employed and paid by the school	Provided and managed by JFLIPS
Who pays whom	School pays JFLIPS for coaching services	Parents pay JFLIPS directly per athlete
Branding	[School Name] Cheerleading	JFLIPS at [School Name] (co-branded)
Facility use	School's own gym/hall, school-managed	School grounds used for practice by agreement
School's time commitment	Moderate — school manages admin & registration	Minimal — JFLIPS manages everything
Best fit for	Schools wanting full ownership of the team	Schools wanting a turnkey program, zero admin load

Not sure which fits? We're happy to talk through both during our meeting — many schools start with Option B and revisit Option A once the program has grown.

If Your School Chooses Option A

Here's a closer look at what the School-Run Team model involves for your sports organizer, and how JFLIPS supports you along the way.

What Your Sports Organizer Will Mainly Handle

- **SAMCA Registration & Fees:** The school and the athletes must be officially registered with SAMCA so we can participate in their competitions, and the required affiliation fees will be managed through the school.
- **Parent Communication & Logistics:** Sending out all information forms and letters to parents explaining competition details — such as dates, call times, venue locations, and general logistics. The organizer will also handle distributing and collecting necessary paperwork, including indemnity forms required by SAMCA or GMCA.
- **Transport & Supervision:** The organizer coordinates transport to competitions.
 - If the school decides to use a bus, the sports organizer (or a designated teacher) will be responsible for supervising the kids at the event.
 - If the school prefers that parents take their own children to competitions, the school's direct supervisory responsibility is lifted, as parents will be there to look after their own children.
- **Uniforms & Props:** The school/organizer handles ordering and organizing the team's uniforms, pom-poms, boards, and any other props needed for the routine.

How We Will Support You

You won't have to navigate this alone — we're here to help every step of the way:

- We will help you source the right suppliers for uniforms, pom-poms, and props
- On competition days, we will be there on the ground to help manage the team — running warm-up and practice sessions, keeping the kids together in one area, making sure they stay focused during practice, and letting them know when to return if they take a break

What's Included, Either Way

- Qualified, experienced coaching staff at every session
- A structured, progression-based curriculum — tumbling, stunting, jumps and conditioning
- Full SAMCA-registered competition choreography, built and refreshed each season
- Guidance on props, boards, poms and uniform requirements
- Safety-first coaching standards and skill-appropriate progressions
- Direct, ongoing communication with parents and school staff
- Coordination of SAMCA competition entries and event logistics

Available on Request

Game-day and sideline cheer appearances at school sports events — for example, cheering pitchside at a rugby match — are not part of the core competitive program, but can be arranged separately if your school would like them.

A Note on Cost

Under Option B, there is no cost to the school at all — JFLIPS handles billing directly with parents. Under Option A, coaching fees are agreed with the school directly based on session frequency and squad size. We're happy to put together exact numbers once we know which model, and how many athletes, you're planning for.

Next Steps

- 1. Meet with school leadership to walk through this proposal
- 2. Choose the model that fits — Option A or Option B
- 3. JFLIPS runs a free showcase for students — introducing what cheerleading is, what they'll learn, and what SAMCA competition looks like
- 4. School helps register interested students
- 5. Confirm practice times and facility access
- 6. First practice date is set, where coaches teach new athletes the basics

We'd love to bring the energy, discipline and school spirit of competitive cheerleading to your school.
